Putting in the Work!

Brothers,

The Alumni Advisors and I were fortunate enough to all make a trip together to Canton in late October. The four of us were able to spend some time with the boys at the Beta House and speak with them in the Abbott-Young Memorial Temple. We even got to join in on a philanthropy event to help improve some outdoor paths in Colton. It was clear from the jump that they're a tight knit group and we were delighted to see them enjoying each other's company.

Hearing directly from the students made us even more excited to be working for them. They were thoughtful in asking questions, spoke about wanting to get more involved on campus and needing to hold each other accountable as brothers - all of which are encouraging signs for us Advisors. With winter

approaching and temperatures (always) low at St. Lawrence, things are hopefully only just heating up with the Boys.

Sean Kelly
Beta Zeta Alumni Association

Support Students by Networking

The current Beta Zeta students have been wanting to learn from alumni about their experience after college and are keen to hone their networking skills. The industries that are of highest interest for the current students are Finance, Math/Computer Science, Government and Environment. In mid-November, we had **Joshua Johnson '10** speak to a number of students over Zoom about his career in Math/Computer Science. Next week, **Ben Landry '14** and **David Mango '15** plan to speak about their experiences in Environment and Finance, respectively. Thank you to our volunteers!

If you are willing to share about your experiences or support the networking efforts of our current undergrads, specifically in any of these industries, please reach out to info@betazetapier.com.

Connect with Laurentian volunteers in the nation's #1 Alumni Network for private colleges/universities (as ranked by The Princeton Review)!

Lend a Hand with Vault

For any Beta or St. Lawrence Alumni wanting to give back, please consider signing up for **Vault** (link [here](#)). Think LinkedIn but as a fast track to network with and provide support to students. The students will search for mentors based on the information that you provide when signing up and can schedule a meeting with you based on the hours you mark as available and open to communicate. You'll receive an email from the platform when a request is made and you can accept or decline the request. If you accept, Vault will send a zoom link to both you and the student.

Notes from the North Country

We were able to get in touch with a few of the boys in executive roles and ask them how things have been this fall. Thank you Thomas and Simon for taking the time to keep us in the loop!

“As the New Member Educator of Beta at St. Lawrence University, I would like to express my appreciation for our fall pledge class. Our group of 17 was recently initiated into our brotherhood and has since shown exceptional commitment to the leadership qualities - both interpersonal and intrapersonal - that Betas are expected to bear. My favorite moment of the pledge process this fall was the group hike up Azure Mountain that we made the morning of initiation. I look forward to spending the next six months of my SLU tenure with this group of guys, and we’re all super appreciative of the moments that we’ve had and for the moments that will come in the future.”

- ***Thomas Gilbert '26, New Member Educator***

“This fall, the Beta Theta Pi Zeta chapter organized two successful philanthropic events. We kicked things off in September with our annual Beta Delta Invitational golf tournament, raising over \$500 for St. Jude’s Hospital. In October, we also launched the Beta-ATO Slip ‘n Slide Tournament, featuring 16 teams and raising \$480 for Campus Kitchens, a club at St. Lawrence which provides food for those in need. Additionally, we participated in Make a Difference Day in mid-October, where a number of us volunteered our time at Higley Flow State Park by laying mulch for the winter snowshoeing and cross-country skiing trails. These efforts highlight our commitment to making a positive impact through service and charitable giving.”

- ***Simon Trudeau '27, Philanthropy Chair***

How Can We Keep Getting Better?

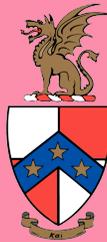

As we build out the new Beta Zeta alumni website, we want to make sure it truly serves our brotherhood. We’ve gathered some ideas by looking at other

alumni organizations, but we'd love to hear from you!

What would you like to see? Whether it's an alumni directory, chapter updates, brother profiles, or something else entirely, let us know. This is a space for all brothers, and your input will help us create something valuable for everyone.
